

MONICAVARELA

THE DESIGNER WITH AN UNAPOLOGETIC SOUL

Monica Varela is a designer from the Dominican Republic who looks beyond the conventional. Her passion for the art of jewelry stems from over a decade after an enrapturing encounter with vibrant colors hidden inside electrical street wires.

Growing up with, famous artist and father, Fernando Varela, she was bound to an artistic environment. Inevitably developing a keen eye for detail. Monica refined her artistry through studies at IED, Istituto Europeo di Design in Milano, and Savannah College of Art and Design.

Monica's duality between her love for abstract art and sensibility for an anatomical evolving imagination is at the core of her eponymous MVSphere. She has elevated traditional craftsmanship by showcasing national semiprecious gemstones with a distinct fusion of cutting-edge detailing; keepsakes made for the discerning art seeker who carry themselves with everlasting elegance.
